

Here's what other Riverscreen owners are saying:

The Riverscreen is the best product I have seen in 52 years of farming. I have 3 Riverscreens and it has completely changed our process of irrigating out of the river and creek. It has taken the pain out of irrigating! I have been through it all and it completely changed everything for us. It's a great idea and it does EXACTLY what it is supposed to do. I really appreciate this product. I would like to get a lawn chair, sit and watch it run.

- Steve Kean, Dawson, NE

"Adding a pivot to my operation was one of the best decisions that I've made. But after 4 years muskrats plugged the suction with mud. I couldn't keep it running for any longer than 3 hours. Then I found the Riverscreen. Since the purchase I haven't had one problem with the suction end of my pivot. I recommend this to everyone that sucks water from an outside source. It's simply amazing to see what the Riverscreen has done for me."

- Kelly Jaspersen, Thayne, WY

"I have been pumping out of the river since 1970 and tried building everything, every stationary screen imaginable. You don't have to worry about the depth of water or any trash coming down the river. There were times that we used to have to worry about the water whirlpool, but with the Riverscreen I don't have that problem. The Riverscreen is the best thing that has ever come along. I'm a true believer in the Riverscreen."

- Larry Heindrick, Beloit, KS

"It works in 1' of water, doesn't plug and sure beats the old method of cleaning screens two times a day. Without the Riverscreen we'd have a hard time pumping enough water with the low river levels and restrictions. It's been great to have a plug free operation as well."

- Jim Kadel, Beloit, KS

"My neighbor told me "DON'T EVEN TRY PUMPING WITHOUT IT."
So I bought one."

- Doug Hass, Ithaca, NE

Call us with the specifics of your operation and we'll help you get more dependable water from your source.

RIVERSCREEN™

DEPENDABLE WATER SUPPLY

SELF-CLEANING OPERATION

See us on the web at www.riverscreen.com

**A ROTATING, WATER DRIVEN, SELF-CLEANING SCREEN
THAT DEPENDABLY DELIVERS GOOD WATER FROM DEPTHS AS LOW AS 4".**

RIVERSCREEN™

Draws from more than 35 sq. ft. of screening area. 4", 6", 8", 10" and 12" models available to fit your suction line.

The ideal solution for any operation which depends on river or canal water sources for pivot irrigation systems. Riverscreen is built for shallow water pumping to prevent sand problems.

Standard on all Riverscreen models is #8 304 stainless steel mesh. Other sizes available upon request. The optional power drive unit keeps drum turning in slow moving currents (uses approx. 6gpm).

"This system works really good and we're super happy with it! We pump out of a canal and get all the trash because we're at the end of line. We have low-pressure nozzles on our pivot and don't have any trouble with them plugging. We virtually have no problems with our Riverscreen. Bob helped design the Riverscreen specifically for us. We are absolutely happy with our Riverscreen."

- Ray Debey, Cawker City, KS

Optional Lifting Boom

- Galvanized for long life
- Heavy 6" upright main pipe
- Trussed boom for greater strength
- Brake winch for ease of operation
- Quick latch hook for easy hookup

Optional Power Drive

- Keeps drum turning even in slow moving current or still water
- Only requires 6 gpm
